

No.	Date of admission	Last and first name	Age		Sex	Place of residence			Degree of dehydration			Date of discharge	Outcome					
			< 5	≥ 5		Neighbourhood, village	Town, country	District, province	None	Some	Severe		C	D	T	AMA		

- N°: record the patient’s admission number. The numbers are assigned in sequential order, e.g. if the last patient on 10/10/2017 was registered as number 133, the first patient on 11/10/2017 will be registered as number 134.
- Age: tick the < 5 column for children under 5 years or the ≥ 5 column for children 5 years and over, adolescents and adults.
- Sex: mark **F** (female) or **M** (male) in the column.
- Place of residence: indicate, depending on the context, the relevant 3 levels of administrative divisions (e.g. neighbourhood, town, and province).
- Degree of dehydration on admission: tick **none** (no dehydration), **some** or **severe**.
- Outcome: tick **C** for “cured”, **D** for “deceased”, **T** for “transferred” (note the facility) or **AMA** for “left against medical advice”.
