

Appendix 33. Report on detection and enrolment of TB cases with rifampicin and multidrug-resistance

Structure _____ Name of coordinator _____

Period of assessment _____ (dd/mm/yyyy) to _____ (dd/mm/yyyy) Date of report _____

Detection

Risk groups (according to detection strategy)	Number of TB cases					
	Total number of eligible patients for testing	Patients tested with Xpert	Patients with Xpert RIF positive	Patients tested for both isoniazid & rifampicin resistance	Resistant to both isoniazid & rifampicin (MDR)	With MDR and tested for a fluoroquinolone & a 2 nd line injectable
Treatment failure						
Other previously treated						
Positive at Month 2/3						
New						
Others						
TOTAL						

Enrolment

Confirmed MDR-TB	
Xpert RIF positive only	
Unconfirmed DR-TB	
H (S) resistance	
HE (S) resistance	
RIF resistance with documented H susceptibility	
TOTAL started on treatment during the period
